MORE VIDEOS

High Performance and Reliable SHRED grinders

Our SHRED grinders range from small, compact units up to mammoth waste shredders that quickly cut problem solids down to size. Two rows of sharp, steel cutters rotate slowly and with incredibly high-torque to turn large troublesome solids into tiny particles. We can even stack shredders for multi-stage grinding - turning large solids into tiny particles.

FEATURES

- Dual shafted shredder
- Hardened steel 3, 7, 11 or 13 tooth cutters

BENEFITS

- Easily retrofits into your existing facility
- Complete with safety guards and systems

Have a Question?

Let us help you! Ask a JWC expert about the SHRED Waste Grinder and get the answers you need – fast!

CLICK HERE

- Custom hopped available
- Low-speed, high-torque grinder

- Effectively shreds rags, clothing, plastics, and other tough debris
- Energy efficient motors to save electricity
